PROFILE

I am a recent BSc graduate from the University of Northampton. I have developed excellent teamwork and problem-solving skills through my degree, as well as organization, communication and time management through my part time job at McDonalds.

My perseverance and ingenuity is highlighted by my dissertation project using 3D elements implemented into website designs.
I am now looking to further develop and use my skills in the computer design industry.

MICHAEL POND

DOB: 05 / 09 / 1997

EDUCATION

The University of Northampton
2016 – 2019

BSc (Hons) Computing (Graphics and Visualization) – Classification 2:1

My dissertation for the final year was focused around 3D elements being implemented into websites.

The Latimer Arts College
2014 – 2016

A Levels:
ICT – Distinction*
Media – Distinction
Graphics – D
Business Studies – C

Three of the four A levels were design-based, allowing me to design, create, build and edit a variety of mediums. Business studies provided me with insight into the business world and how different businesses are structured and operate.

WORK EXPERIENCE

McDonald's Crew / Support Maintenance
2013 – Present
- Stock replenishment and organization
- Working efficiently and within a team
- Serving customers
- Store cleanliness and functionality

Voluntary Website Design
I worked alongside my brother to help design and create a website for my father' business. I have aided in the design of my brother's new business website following a brief that was provided.

SKILLS

Photoshop / Premiere Pro
